Celebrating the music of Heart and Led Zeppelin

Barracuda are from Vancouver BC, the city where Heart was fully formed and recorded their first two albums. Combining all of Heart's greatest hits from rockers to ballads but also covering Led Zep material which Heart did and still does. In fact they were nicknamed Little Zep.

### The Ladies of Barracuda

Led by four octave powerhouse vocalist D.L. Car; who is an Ann Wilson purist vocally and she also plays flute and acoustic guitar. Both Roger Fisher, Heart's original lead guitarist and co-songwriter, and his brother Michael, Heart's sound -tech, manager and Ann's boyfriend who the song Magic Man was written about have both gone on record stating that D.L. Car is vocally the closest to Ann Wilson they have ever heard and they have seen many! Roger has made guest appearances with Barracuda many times over the past 10 years.

Barracuda searched far and wide for a perfect Nancy Wilson persona, and found the perfect candidate in Sarah Moon who resides in Portland OR, Sarah brings her musical talents along with a physical presence to the stage.
